

Seminars and Presentations

Seminars and Presentations If nationally recognized certification is not necessary for your training needs, or if you are looking for a specific, non-sponsored course in CPR, First Aid, Water Safety or other Emergency Care topics, Save and Aid instructors can give presentations or seminars to make students comfortable and confident with situations that are of interest to them. Organizations who have used our seminar format include Boy Scouts, Girl Scouts, summer camps, hospitals, and private pool owners. Please contact us to arrange a presentation that meets your training needs.
